

RS2 achieves Oracle Certified Partner Status

RS2 Software p.l.c., a global software provider of bankWORKS card management solutions has today announced that it has achieved Oracle Certified Partner status within the Oracle PartnerNetwork (OPN).

Oracle Certified Partner status reflects RS2's recognised superior product knowledge, technical expertise and a commitment to doing business with Oracle. The company is now part of a select group of 20,000 partners that meet Oracle's strict joining criteria.

RS2 is a global player in providing end-to-end software solutions to the payment industry.

"Our partnership with Oracle gives us access to Oracle's premier products, education, technical services, marketing and sales support that enable us to provide leading-edge products and support for our customers, backed by Oracle's position as the world's largest enterprise software company," said Mr. Mario Schembri, Chief Executive Officer, RS2.

"By achieving Certified Partner status, RS2 has proven its ability to help Oracle customers by providing inventive technology that extends the value of their IT infrastructure. This partnership level demonstrates the commitment that RS2 has made and its success in working with Oracle", commented Panos Lambrakis, Alliances & Channel Sales Manager for Greece, Cyprus and Malta, Oracle Hellas.

Oracle PartnerNetwork is a global business network of more than 20,000 companies who deliver innovative software solutions based on Oracle software. For more information you can visit <http://oraclepartnernetwork.oracle.com>

Notes to Editors

About RS2 Software plc

RS2 Software p.l.c., is a global provider of Card Management Systems software, IT consultancy and related services to international and domestic banks, service providers, and other financial organisations.

RS2's solutions are focused on the bankWORKS® suite of application modules. bankWORKS® is a powerful modular high-end card management system designed to meet current and future requirements in the international payment card industry. The system meets processing requirements defined by banks, service providers, as well as other organisations participating in diverse card businesses. The system's modules include Card Issuing, Merchant Acquiring, Transaction Processing, Clearing, Settlement, Reporting, Dispute Management and Internet Services.
