

PRESS RELEASE: 05.02.2020

First Global Launch of RS2's new Direct Acquiring business in Latin America in partnership with Colombia's MOViiRED

- ***Launch follows three years of strategic development and is the first of a global roll out to include Europe and North America***

FRANKFURT/BOGOTA, 05 FEBRUARY 2020 – RS2 Group, the global payments processing and technology provider, has entered into a partnership agreement with MOViiRED Colombia. As part of this partnership, RS2 will launch its new direct acquiring business for the first time anywhere in the world. RS2's direct acquiring service will have the capacity to acquire transactions in an omnichannel environment, including e-commerce, MOTO and point of sale transactions. Colombia is one of Latin America's fastest-growing markets, and widely seen around the world as a market with outstanding potential.

RS2 will also issue a variety of card products to consumers in Colombia in partnership with MOViiRED, including prepaid cards, loyalty products, money transfer and gift cards. Since 2019, MOViiRED's has used RS2's processing capabilities, including the RS2 single processing platform for issuing and acquiring. MOViiRED has also implemented the MOVii virtual wallet to provide cardholders and merchants with a frictionless payment experience. Launched less than a year ago, MOVii is on track to become Colombia's leading digital challenger bank, reaching its first 500,000 users by end Q1 2020.

RS2's CEO, Radi El Haj, said: "Today's launch marks the culmination of three years of strategic development for RS2. We are launching a single global platform with a simple, one-API integration process which will provide consumers and merchants with services in both closed-loop and open-loop environments. We are pleased to partner with MOViiRED

as the leading challenger bank in Colombia. Our partnership will combine our strengths, with MOViiRED speaking their customer's language, plus their intimate knowledge of the challenges merchants and consumers face in Colombia today. It's thanks to the strength of this partnership that we have chosen Colombia for the global launch of our new direct acquiring service, which we expect to roll out in Europe and North America this year, once the German Regulator BaFin has granted an e-Money license to our German Subsidiary."

Hernando Rubio, CEO of MOViiRED, added: "Our goal is to disrupt the current payment system in Colombia. RS2's new direct acquiring business will enable merchants and consumers to transact using a single digital platform. With RS2, merchants can expect to be up and running inside 24 hours, rather than the usual time of couple of weeks. Ultimately, our objective is to disrupt cash usage in Colombia, working with RS2. We want our customers to pay without lengthy procedures and queues and at the lowest possible cost."

Colombia is a market with huge potential for future growth. Today only 8% of merchants in Colombia accept card-payments, compared to neighbouring countries such as Brazil at 32%. On average, merchant payment acceptance for non-cash transactions across LATAM is around 23%. Because the Colombian market is so underserved, the partners expects to see exponential growth in its direct acquiring and issuing business, having already built up a strong base of 60,000 POS terminals that serve 15 million client transactions per month, including mobile bill payments, transportation tickets, digital content streaming and money transfers.

About MOViiRED
